- Please Note: Most Financial institution will not except a verbal authorization from you to wire funds from your account. - Wire Funds usually take 12-24 hours to show up in our account and the purchase item/vehicle cannot leave until funds are confirmed in our account. Please allow enough time for this process to take place.

International Wires: Understand that international wires usually have a currency conversion fee. In this case, If you wire \$25,000.00, your bank will charge you a small fee, but the transition bank will charge another fee and deduct it from the wired amount, It is unlikely that the full \$25,000.00 will end up in our account. Usually this fee is a small percentage or flat fee. You will be required to cover the difference if the full amount is not received.
